

CREOLIN - PESTICIDE

DESCRIPTION

This product is a natural and powerful disinfectant, especially for use in places where bacteria may increase in number. It is used to eliminate the smell of pet urine and to counteract the presence of parasites, fleas and ticks. Creolin is a multi-purpose cleaner for domestic, commercial and veterinary use.

USES OF THE PRODUCT

Creolin is a deodorizing cleaner used to clean bathrooms, kennels, barns and as a cleaner/rinse for dogs and horses. Also to clean surfaces: toilets, sinks, bathtubs, sinks, garbage cans, floors, walls, woodwork, kitchen floors and basements.

Creolin should not be used on industrial or domestic food processing surfaces and equipment.

PRECAUTIONS AND RECOMMENDATIONS

- Creolin is an aggressive cleaner and disinfectant and should be used with care, following safety instructions.
- The product is delicate to use and should be handled using neoprene gloves and safety glasses. For prolonged handling, the use of a chemical mask is recommended.
- The product may cause skin and eye irritation and may cause nausea if inhaled for prolonged periods. The affected person should go outside to get fresh air immediately and seek medical attention if eye irritation persists.
- Avoid prolonged direct contact with the skin and especially with the eyes.
- Do not ingest, if ingested do not induce vomiting, seek medical attention.
- Keep out of reach of children and pets.
- In case of contact with eyes and/or skin, wash with plenty of water for at least 15 minutes. If eye irritation persists, seek medical attention.
- Use in ventilated areas.

USAGE INSTRUCTIONS

- Creolin comes in a 30% concentration and should be used diluted by adding 20% of the product to 80% water.
- A spray bottle can be used and also diluted to use in a mop bucket to scrub surfaces.
- Allow the product to sit on the surface for 5 to 10 minutes to act as a disinfectant, before rinsing with water.

INGREDIENTS

ChemicalCas No.

- Quaternary Blend68424-85-2

PHYSICAL AND CHEMICAL DETAILS

Appearance and odor _____ *dark brown liquid with alkaline odor*
- Boiling point _____ *> 100 °C*
- Solubility in water _____ *Exothermic, dissolution*
- pH _____ *13.0*
- Density _____ *1.1 g/mL*
- Non-flammable product
